

**FOR INDUSTRIAL AIR FILTRATION
AND AIR COLLECTION SYSTEMS**

INTELLIGENT CONTROL SOLUTION BENEFITS

Fewer cleaning cycles means more uptime and reduced plant maintenance cost **by up to 50%**

Increase energy efficiency and reduce compressed air usage **by up to 40%**

Reduced carbon footprint, less CO2 emissions associated with the electrical energy requirements **by as much as 50%**

Ongoing maintenance cost savings due to the increased lifespan of cartridge filters, filter bags, and diaphragm valves, extends operational hours **by up to 30%**

ABOUT US

For over 40 years, PTronik has manufactured innovative and SMART control solutions for industrial air filtration and dust collection systems. PTronik's comprehensive product range, high quality, customisable offerings, reliability, and dedication to exceptional service make us the first choice for many customers globally, including Original Equipment Manufacturers and Maintenance Providers.

-  Chemical
-  Minerals Ore
-  Cement
-  Pharmaceuticals
-  Food & Beverage
-  Construction & Mining
-  Metal Processing
-  Manufacturing
-  Coal Power plants

PTronik's SMART Remote Monitoring Dust Control Solutions

Industry 4.0

IMPROVE ECONOMIC AND ENVIRONMENTAL PERFORMANCE OF YOUR BUSINESS

REAL TIME ALARM SYSTEM

WE PUT CONTROL IN YOUR HANDS EVERYTIME AND EVERYWHERE !

RANGE OF PRODUCTS

- Sequential Timer
- On-Demand Pulse Controller
- Remote Condition Monitoring Systems
- Customised Control Solutions

PTRONIK IN- HOUSE CAPABILITIES

- Design & Manufacturing of Advanced Dust Control Systems
- Engineering & Development of OEM Control Solutions
- PCB and Software Development & Manufacturing
- Service & Support

Industrial manufacturing operations are getting leaner and require constant process monitoring and optimisation. With high demands on engineering and maintenance managers to operate processes effectively and efficiently, **PTronik** has the **SMART** solution to comply with all of your requirements.

We give our customers peace of mind that their control systems are effective, efficient and safe.

PTronik designs, manufactures and supplies high efficiency process optimisation solutions for industrial air filtration and dust collection.
